## EDUCATION

2021–2025 **Ph.D. in Psychology (Developmental)**
Department of Psychology, University of Wisconsin-Madison
Dissertation: The Mental Representation of Negative Integer Magnitudes Over Development and Across Contexts

2019–2021 **M.S. in Psychology (Developmental)**
Department of Psychology, University of Wisconsin-Madison

2012–2016 **B.S. in Psychology, with Honors**
Certificate in Neuroscience
Department of Psychological and Brain Sciences, Indiana University

## RESEARCH INTERESTS

I study mathematical cognition and learning in context, examining how children represent mathematical concepts, how external representations shape their reasoning, and how interactions with AI shape mathematical understanding.

## RESEARCH EXPERIENCE

2025– **Postdoctoral Associate**
School of Teaching and Learning, University of Florida
Institute for Advanced Learning Technologies

2019–2025 **Graduate Research Assistant**
Department of Psychology, University of Wisconsin-Madison
Cognitive Development and Communication Lab

2017–2019 **Laboratory Manager**
Department of Psychological and Brain Sciences, Indiana University
Learning, Education, and Development Lab

## INTERNAL AND EXTERNAL FUNDING

2026 **AIMS EduData Initiative Award (Gates Foundation)**

*Misconception Trajectories as Early Indicators of Mathematics Risk: Testing the Predictive Value of Feature-Engineered Cognitive Error Patterns in EdLight*
**PI:** Nicholas A. Vest, Ph.D.
Award Amount: $20,000

2025 **Innovamat Education Small Research Grant**
*Investigating the Development of Integer Representations in Adolescence Through Shared Research Infrastructure in Authentic Classrooms*
**PI:** Nicholas A. Vest, Ph.D.
Award Amount: $2,000

2025 **UF Lastinger Center for Learning Research Catalyst Grant**
*Wading Deeper into the Lagoon to Examine Engagement Across Channels*
**PI:** Avery H. Closser, Ph.D.; **Postdoctoral Fellow:** Nicholas A. Vest, Ph.D.
Award Amount: $83,366

## AWARDS

| | |
|---|---|
| 2025 | Travel Award, Society for Research in Child Development [$300] |
| 2024 | Serendipity Award, University of Wisconsin-Madison [$7,500] |
| 2024 | Psychology Department Award for Outstanding Teaching, University of Wisconsin-Madison [$500] |
| 2023 | Student Research Grant Competition: Conference Presentation Award, University of Wisconsin-Madison [$600] |
| 2022–2025 | Hertz Travel Award, University of Wisconsin-Madison [$3,500] |
| 2021 | Simon Initiative's LearnLab Scholarship, Carnegie Mellon University [$500] |
| 2019–2025 | Menzies Research Award, University of Wisconsin-Madison [$3,000] |
| 2019 | Mamie and Kenneth Clark Award, University of Wisconsin-Madison [$2,500] |

## PEER-REVIEWED JOURNAL PUBLICATIONS

** Denotes mentored undergraduate or graduate student*

1. Martin, N.*, **Vest, N. A.**, Closser, A. H., & Botelho, A. F. (in press). Not all who avoid help are lost: The relations between help avoidance and performance in a digital learning platform. *Contemporary Educational Psychology*.

2. Tarantino, N.*, Hu, Y.*, & **Vest, N. A.** (in press). Task-dependent difficulty with negative slope in linear functions. *Journal of Numerical Cognition*.

3. **Vest, N. A.**, & Alibali, M. W. (2026). Flexibility in abstract thought: Context-dependent representations of integer magnitude. *Psychonomic Bulletin & Review*. https://doi.org/10.3758/s13423-026-02977-6

4. Fyfe, E. R., Grenell, A., & **Vest, N. A.** (2026). The negative effects of self-focused feedback on mathematics problem solving. *Applied Cognitive Psychology*.

https://doi.org/10.1002/acp.70239

5. Closser, A. H., Westerberg, L., Geer, E. A., **Vest, N. A.**, Duncan, R., Schmitt, S. A., & Purpura, D. J. (2026). How do spatial skills take shape? Examining preschoolers' performance on 2D and 3D assembly tasks. *Journal of Cognition and Development*. https://doi.org/10.1080/15248372.2026.2667517

6. **Vest, N. A.**, Anthony, L. E., Callery, K.*, Shack, A. P.*, Becerra-Lopez, C.*, & Alibali, M. W. (2025). Does focusing on the unit of change help children learn growing pattern skills? *Journal of Cognition and Development.* https://doi.org/10.1080/15248372.2025.2484221

7. Alibali, M. W., Matthews, P. G., Rodrigues, J., Meng, R., **Vest, N. A.**, Jay, V., Menendez, D., Murray, J., Donovan, A. M., Anthony, L. E., & McNeil, N. M. (2024). Research on mathematical cognition, learning, & instruction: A bird's-eye view. *Journal of Experimental Child Psychology*. https://doi.org/10.1016/j.jecp.2024.106056

8. **Vest, N. A.**, & Alibali, M. W. (2024). Is zero more than nothing? Relations between concepts of zero and integer understanding. *Journal of Experimental Child Psychology*. https://doi.org/10.1016/j.jecp.2024.106041

9. Borriello, G., Grenell, A., **Vest, N. A.**, Moore, K.*, & Fyfe, E. R. (2023). Links between patterning and mathematics skills across childhood and adulthood. *Child Development*. https://doi.org/10.1111/cdev.13882

10. **Vest, N. A.**, Fagan, S. E., & Fyfe, E. R. (2022). The role of gesture and mimicry for children's pattern learning. *Cognitive Development*. https://doi.org/10.1016/j.cogdev.2022.101196

11. **Vest, N. A.**, Fyfe, E. R., Nathan, M. J., & Alibali, M. W. (2020). Learning from an avatar video instructor: The role of gesture mimicry. *Gesture*. https://doi.org/10.1075/gest.18019.ves

*[UNDER REVIEW]*

1. **Vest, N. A.**, Closser, A. H., & Colomer, M. (minor revision). Negative number representations and arithmetic across secondary grades: Evidence from a digital learning platform.

2. Closser, A. H., **Vest, N. A.**, Zhang, S., Cobo, A., Lee, S., Esmaeiligoujar, S., Mateo, D., Rosenburg, A., Dever, D., Botelho, A., Poekert, P., & Israel, M. (under review). Exploring the impact of AI in high school education through a research-practice-industry partnership (RPIP) model.

3. Tarantino, N.*, **Vest, N. A.**, & Alibali, M. W. (under review). Sources of spatial bias in the perception of trend from graphs.

*[IN PREPARATION]*

1. Closser, A. H., **Vest, N. A.**, Odegaard, B., & Caruso, T. (in prep). The effects of font color manipulation on undergraduates' performance and confidence on quantity judgment trials and arithmetic problems.

2. **Vest, N. A.**, Marupudi, V., & Tarantino, N.* (in prep). Flexible recruitment of negative integer representations across development.

3. **Vest, N. A.**, Carr, D., Levine, S. C., & Mix, K. S. (in prep). Does the effectiveness of diagram instruction depend on problem difficulty for second-grade students?

**CONFERENCE PROCEEDINGS**

1. **Vest, N. A.**, & Marupudi, V. (2026, July). Evidence of context-dependence in people's representations of negative numbers. *Proceedings of the Annual Conference of the Cognitive Science Society*. Rio de Janeiro, Brazil.

2. **Vest, N. A.**, Weaver, H. J., & Alibali, M. W. (2022, July). Zero in on this: Children are exposed to various concepts of zero prior to age six. *Proceedings of the Annual Conference of the Cognitive Science Society*. Toronto, Canada.

3. Nagashima, T., Ling, E., Zheng, B., Bartel, A. N., Silla, E. M., **Vest, N. A.**, Alibali, M. W., & Aleven, V. (2022, July). How does sustaining and interleaving visual scaffolding help learners? A classroom study with an Intelligent Tutoring System. *Proceedings of the Annual Conference of the Cognitive Science Society*. Toronto, Canada.

4. **Vest, N. A.**, Silla, E. M., Bartel, A. N., Nagashima, T., Aleven, V., & Alibali, M. W. (2022, July). Self-explanation of worked examples integrated in an Intelligent Tutoring System enhances problem solving and efficiency in algebra. *Proceedings of the Annual Conference of the Cognitive Science Society*. Toronto, Canada.

5. **Vest, N. A.**, & Alibali, M. W. (2021, July). The mental representation of integers: Further evidence for the negative number line as a reflection of the natural number line. *Proceedings of the Annual Conference of the Cognitive Science Society*. Vienna, Austria.

6. Nagashima, T., Bartel, A. N., Tseng, S., **Vest, N. A.**, Silla, E. M., Alibali, M. W., & Aleven, V. (2021, July). Scaffolded self-explanation with visual representations promotes efficient learning in early algebra. *Proceedings of the Annual Conference of the Cognitive Science Society*. Vienna, Austria.

7. Bartel, A. N., Silla, E., **Vest, N. A.**, Nagashima, T., Aleven, V., & Alibali, M. W. (2021, July). Reasoning about tape diagrams: Insights from students and math teachers. *Proceedings of the International Conferences of the Learning Sciences*.

8. Nagashima, T., Bartel, A. N., Tseng, S., **Vest, N. A.**, Silla, E. M., Alibali, M. W., & Aleven, V. (2021, July). Using anticipatory diagrammatic self-explanation to support learning and performance in early algebra. *Proceedings of the International Conferences of the Learning Sciences*.

9. Nagashima, T., Bartel, A. N., Silla, E. M., **Vest, N. A.**, Alibali, M. W., & Aleven, V. (2020, June). Enhancing conceptual knowledge in early algebra through scaffolding diagrammatic self-explanation. In M. Gresalfi & I. S. Horn (Eds.), *Proceedings of the International Conference of the Learning Sciences* (pp. 35-43). Nashville, TN: International Society of the Learning Sciences.

10. Nagashima, T., Yang, K., Bartel, A. N., Silla, E. M., **Vest, N. A.**, Alibali, M. W., & Aleven, V. (2020, June). Pedagogical Affordance Analysis: Leveraging teachers' pedagogical knowledge for eliciting pedagogical affordances and constraints of instructional tools. In M. Gresalfi & I. S. Horn (Eds.), *Proceedings of the International Conference of the Learning Sciences* (pp. 1561-1564). Nashville, TN: International Society of the Learning Sciences.

**CONFERENCE PRESENTATIONS**

1. **Vest, N. A.**, Closser, A. H., & Israel, M. (2027, January). *Measuring what matters: Understanding AI's impact on teaching and learning through a research-practice-industry partnership*. [Concurrent session] Future of Education Technology Conference (FETC), Orlando, FL.

2. Israel, M., Closser, A. H., & **Vest, N.A.** (2027, January). *Pedagogy before prompts: What educators are teaching us about AI*. [Poster] Future of Education Technology Conference (FETC), Orlando, FL.

3. Martin, N.*, **Vest, N. A.**, Closser, A. H., & Botelho, A. F. (2026, June). *More than translation: The role of culture in online professional development courses.* Paper presented at the 8th International Workshop on Culturally-Aware Tutoring Systems (CATS2026), co-located with the 27th International Conference on Artificial Intelligence in Education (AIED 2026), Seoul, South Korea.

4. Shen, Y., He, V., **Vest, N. A.,** & Chan, J. (2026, June). *Mathematics interest and performance: The role of the home mathematics environment*. [Poster] Annual Meeting of the Mathematical Cognition and Learning Society Conference.

5. Tarantino, N.*, **Vest, N. A.,** & Alibali, M. W. (2026, June). *Spatial numerical associations in the perception of trends in graphs*. [Poster] Annual Meeting of the Mathematical Cognition and Learning Society Conference.

6. **Vest, N. A.**, Colomer, M., & Closser, A. H. (2026, March). *Investigating the development of integer representations in adolescence through shared research infrastructure in authentic classrooms* [Poster]. National AI Literacy Day.

7. Miller, P., Donovan, A., Yoo, S. H., Ortega, A., Lopez, A., **Vest, N. A.**, Anggoro, F., Jee, B., Rosengren, K., & Alibali, M. W. (2026, March). *Relational language and learning in a card game about the insect life cycle* [Poster]. Biennial Meeting of the Cognitive Development Society.

8. **Vest, N. A.**, & Alibali, M. W. (2025, June). Do representations of negative numbers in children and adults depend on context? In Y. Oscar (Chair), *Visual-spatial aspects of numerical cognition*. Symposium presented at the Annual Meeting of the Mathematical Cognition and Learning Society Conference.

9. **Vest, N. A.,** & Hu, Y.* (2025, June). *Slippery slopes: Examining college students' understanding of linear equations with negative slopes*. [Lightning talk] Annual Meeting of the Mathematical Cognition and Learning Society Conference.

10. **Vest, N. A.**, Briceno, A. R.*, Berger, H. Z.*, & Alibali, M. W. (2025, May). *Developing negative number magnitudes: Evidence from distance effects during symbolic magnitude comparison.* [Poster] Biennial Meeting of the Society for Research in Child Development.

11. **Vest, N. A.**, Anthony, L. E., Callery, K.*, Shack, A. P.*, Becerra, C.*, Maheshwary, P.*, & Alibali, M. W. (2024, June). Does focusing on the unit of change help children extend and abstract shape and number patterns? In N. A. Vest (Chair), *Pattern learning: Empirical research about interventions, parental beliefs, and links to mathematical competence in children*. Symposium presented at the Annual Meeting of the Mathematical Cognition and Learning Society Conference.

12. **Vest, N. A.**, Anthony, L. E., Becerra, C.*, Maheshwary, P.*, Callery, K.*, Shack, A. P.*, & Alibali, M. W. (2024, March). *Learning to extend shape and number patterns: Do lessons focused on the pattern unit help?* [Poster] Biennial Meeting of the Cognitive Development Society.

13. **Vest, N. A.**, & Alibali, M. W. (2023, June). Conceptions of zero and the semantic congruence effect: Evidence from children and adults. In N. A. Vest (Chair), *More than nothing? Empirical insights into children and adults' conceptions of "zero"*. Symposium presented at the Annual Meeting of the Mathematical Cognition and Learning Society Conference.

14. **Vest, N. A.**, Manhart, H. M.*, Smith, L. R.*, & Alibali, M. W. (2022, March). *Predictors of arithmetic fluency with integers.* [Poster] Biennial Meeting of the Cognitive Development Society.

15. Silla, E. M., **Vest, N. A.**, Nagashima, T., Bartel, A. N., Anthony, L., Aleven, V., & Alibali, M. W. (2021, November). *Efficacy of tape diagrams: Evidence from an Intelligent Tutoring System.* [Lightning talk] Annual Meeting of the Mathematical Cognition and Learning Society Conference.

16. **Vest, N. A.**, & Alibali, M. W. (2021, November). *How do children's concepts of zero relate to their understanding of integers?* [Lightning talk] Annual Meeting of the Mathematical Cognition and Learning Society Conference.

17. Borriello, G. A., **Vest, N. A.**, & Fyfe, E. R. (2021, April). *Associations between novel patterning assessments and mathematics knowledge across childhood.* [Poster] Biennial Meeting of the Society for Research in Child Development.

18. **Vest, N. A.**, Borriello, G. A., & Fyfe, E. R. (2021, April). *Mimicking speech and gesture during a lesson may not be beneficial for early learners.* [Poster] Biennial Meeting of the Society for Research in Child Development.

19. **Vest, N. A.**, Silla, E. M., Bartel, A. N., Nagashima, T., Aleven, V., & Alibali, M. W. (2021, April). *Learning from worked examples: Conceptually rich explanations predict conceptual gains.* [Poster] Biennial Meeting of the Society for Research in Child Development.

20. Nagashima, T., Bartel, A. N., Silla, E. M., **Vest, N. A.**, Alibali, M. W., & Aleven, V. (2020, November). *Collaborative open educational practices: Sharing of evidence-based open educational resources to facilitate meaningful adaptation*. [Gallery showcase] Open Education Conference.

21. Bartel, A. N., Silla, E. M., **Vest, N. A.**, Nagashima, T., Tang, Y.*, Aleven, V., & Alibali, M. W. (2020, July). *Reasoning about equations with tape diagrams: Do differing visual features matter?* [Poster] Annual Meeting of the Cognitive Science Society.

22. Bartel, A. N., Silla, E. M., **Vest, N. A.**, Nagashima, T., Tang, Y., Aleven, V., & Alibali, M. W. (2020, June). Do tape diagrams promote a focus on conceptual principles? Evidence from equation solving with an Intelligent Tutoring System. In T. T. Wong (Chair), *Principle knowledge in mathematics: its development, cognitive predictors, and potential interventions*. Symposium presented at the Annual Meeting of the Mathematical Cognition and Learning Society Conference.

23. **Vest, N. A.**, & Fyfe, E. R. (2020, June). *Don't copy me! How mimicking gestures influence children's patterning performance*. [Poster] Annual Meeting of the Mathematical Cognition and Learning Society Conference.

24. **Vest, N. A.**, & Fyfe, E. R. (2020, April). *A novel patterning assessment and its associations with formal numeracy knowledge.* [Poster session canceled] Annual Meeting of the Midwestern Psychological Association, Chicago, IL.

25. **Vest, N. A.**, & Fyfe, E. R. (2020, March). The effects of feedback in an evaluative online learning context. In M. DeCaro (Chair), *The science of learning*. Symposium presented at the annual meeting of the Southern Society for Philosophy and Psychology.

26. **Vest, N. A.**, & Fyfe, E. R. (2019, May). *The effects of self-focused feedback on students' mathematics problem solving*. [Poster] Annual Convention of the Association for Psychological Science. Washington, D.C.

27. Macchione, A. L.*, **Vest, N. A.,** & Fyfe, E. R. (2019, March). *Point to those! Grouping gestures predict children's early patterning skills.* [Poster] Biennial Meeting of the Society for Research in Child Development. Baltimore, MD.

28. **Vest, N. A.**, & Fyfe, E. R. (2018, November). *Feedback hinders performance on women's mathematics problem solving.* [Poster] Annual Convention of the Psychonomic Society. New Orleans, LA.

29. **Vest, N. A.**, & Fyfe, E. R. (2018, May). *Learning from an avatar video instructor: Gesture mimicry supports middle schoolers' algebra knowledge*. [Poster] Annual Convention of the Association for Psychological Science. San Francisco, CA.

30. **Vest, N. A.**, & Fyfe, E. R. (2018, May). *YOU are right! Feedback focused on the self enhances problem solving*. [Poster] Annual Conference of the Midwest Cognitive Science. Bloomington, IN.

31. **Vest, N. A.**, West, M. J., & Dohme, R. (2016, March). *Attentional differences and their contribution to autism.* [Poster] Indiana University's Department of Psychological and Brain Sciences Honors Banquet. Bloomington, IN.

## INVITED TALKS

| | |
|---|---|
| 2026 | The Computation and Language Lab, University of California, Berkeley |
| 2025 | Developmental Psychology Proseminar, University of Florida |
| 2025 | Mathematical Cognition in Context, The Mathematical Cognition and Learning Society |
| 2025 | Developmental Psychology Proseminar, University of Wisconsin-Madison |
| 2025 | The Computation and Language Lab, University of California, Berkeley |
| 2024 | Cognitive Origins Lab, University of Wisconsin-Madison |
| 2024 | Developmental Psychology Proseminar, University of Wisconsin-Madison |
| 2023 | Cognitive Origins Lab, University of Wisconsin-Madison |

## WORKSHOPS

| | |
|---|---|
| 2026 | Data Science Methods for Digital Learning Platforms, University of Pennsylvania |
| 2022 | NUMBERs, From Cognition to Instruction: A Bird's-Eye View of Math Cognition Interventions, Kent State University [Scholarship] |

2022 From Images to Symbols: Drawing as a Window into the Mind, Annual Cognitive Science Conference, Toronto, Canada
2021 LearnLab, Educational Data Mining, Carnegie Mellon University [Scholarship]
2020 ICPSR Summer Program, Machine Learning: Applications and Opportunities in Social Science Research, University of Michigan [Scholarship]

## TEACHING EXPERIENCE

*Graduate Courses*

2023–2024 **Graduate Teaching Assistant**
Department of Psychology, University of Wisconsin-Madison
Design and Analysis of Psychological Experiments II (PSYCH 710)
Design and Analysis of Psychological Experiments I (PSYCH 610)

*Undergraduate Courses*

2024 **Instructor of Record**
Department of Psychology, University of Wisconsin-Madison
Numerical Cognition (PSYCH 601)
Effectiveness Rating: 4.9/5
Inclusive Climate Rating: 5/5

2022–2023 **Graduate Teaching Assistant**
Department of Psychology, University of Wisconsin-Madison
Cognitive Development (PSYCH 502)
Basic Statistics for Psychology (PSYCH 210)
Introduction to Psychology (PSYCH 202)

*Guest Lectures*

2026 **Guest Lecturer**
School of Teaching and Learning, University of Florida
Special Topics: Science for Social and Behavioral Research (EDG 6931)
Participatory Research and Citizen Science

2022 **Guest Lecturer**
Department of Psychology, University of Wisconsin-Madison
Cognitive Development (PSYCH 502)
Development of Academic Skills - Mathematics

## MENTORING

**Graduate Students:** Natalia Martin (2025–present), Xintian Gao (2025–present), Xin Guan (2026–present)

**Research Interns:** Isha Tyagi (2026), Roshan Balla (2026), Ashley Briceno (2023), Christian Palaguachi (2020)

**Undergraduate Research Assistants:** Nick Tarantino (Honors; 2023–present), Gabby Simmons (2024–2025), Grace Baeb (2024–2025), Adam Mikkelson (2024–2025), Kaitlyn Meier (2024–2025), Zoe Nazario (2024–2025), Hema Subramanian (2024–2025), Harrison Berger (2024–2025), Jasmine Hu (2023–2025), Skylar Montgomery (2023–2024), Kendall Callery (2022–2023), Christine Becerra-Lopez (2022–2023), Alyssa Shack (2021–2024), Lauren Smith (Honors; 2021–2022), Zach Buehler (2021–2022), Holden Manhart (2020–2023), Tom Tang (2019–2022), Megan Haas (2019–2020), Brandan Risen (2019–2020), Tyler Tommasi (2019–2020), Makayla Petersdorff (2019–2020)

**Selected Student Placements:** Nick Tarantino (postbaccalaureate program, Law and Economics, University of Michigan); Jasmine Hu (M.S. student, Clinical Mental Health Counseling, Johns Hopkins University); Ashley Briceno (M.S. student, Sport Psychology, University of Illinois Urbana-Champaign); Lauren Smith (Ph.D. student, Developmental Psychology, Northwestern University); Christian Palaguachi (Ph.D. student, Educational Technology, University of Illinois Urbana-Champaign)

## SERVICE

| | |
|---|---|
| 2026– | **Elected Co-Chair**, The Mathematical Cognition and Learning Society |
| 2024–2026 | **Elected Research Chair**, The Mathematical Cognition and Learning Society |
| 2022– | **Volunteer Research Lead**, Madison East Science Expo, University of Wisconsin-Madison |
| 2022–2024 | **Graduate Student Representative**, Colloquium Committee University of Wisconsin-Madison |
| 2020–2022 | **Elected Graduate Student Representative**, Climate and Diversity Committee University of Wisconsin-Madison |

## AD HOC REVIEWER

*[JOURNALS]*

*Journal of Educational Psychology*
*Contemporary Educational Psychology*
*Mathematical Thinking and Learning*
*Research in Mathematics Education*
*Journal of Numerical Cognition*
*Journal of Experimental Child Psychology*
*British Journal of Developmental Psychology*
*STEM Education*

*[CONFERENCES]*

*Artificial Intelligence in Education (AIED)*

*American Educational Research Association (AERA)*
*Cognitive Science Society (CogSci)*

## TECHNICAL SKILLS

**Programming & Data:** R, Python, JavaScript, SQL; database management
**Computational Methods:** Computational modeling, machine learning, natural language processing (NLP), learning analytics
**AI & Automation:** Generative AI, LLM-based workflows, AI-augmented workflow automation, API integration
**Research Platforms & Tools:** Qualtrics, ATLAS.ti, ELAN, GitHub, OSF, Airtable, FileMaker
